## WORK EXPERIENCE

### Software Engineer
Self-employed - Freelancing

09/2023 - 04/2024                                    India

Achievements/Tasks

- Spearheaded development of custom solutions with ReactJS, TypeScript, Python, and more, resulting in a 20% improvement in project efficiency.
- Implemented Git for version control, slashing development time by 30% and enhancing collaboration.
- Applied Agile methodologies for project management, driving a 25% increase in project completion rates.

### Implementation Consultant
Dataio

04/2023 - 09/2023                          Surat, Gujarat, India

Achievements/Tasks

- Orchestrated the implementation of Syndigo MDM solutions, elevating data accuracy by 15%.
- Managed multiple MDM projects across diverse domains, catalyzing a 20% increase in client referrals.
- Collaborated on match configurations and graph processor integration, cutting data processing time by 10%.

### Software Engineer
Accubits Technologies Inc

12/2021 - 04/2023              Thiruvananthapuram, Kerala, India

Achievements/Tasks

- Engineered projects using NextJS, TypeScript, ReactJS, and more, driving a 25% boost in client satisfaction.
- Demonstrated adept project management skills with Git, Jira, and QA coordination, slashing project delays by 20%.
- Leveraged external APIs and SDKs to amplify project capabilities, resulting in a 15% increase in scalability.

## EDUCATION

### Masters in Data Science
IU International University Of Applied Sciences

04/2024 - Present                          Berlin, Germany

Courses

- Specialization in machine learning, data analysis, and predictive modelling.
- Advanced Data Mining, Big Data Analytics, Statistical Learning.

### Master of Science in Information Technology (M.Sc.IT)
Veer Narmad South Gujarat University

10/2020 - 07/2022                                    India

Key projects

- Developed applications using .Net, Java, Android, ReactJs, JavaScript, HTML5, Bootstrap, CSS3, and SQL.

## SKILLS

ReactJS   Javascript   Python   NextJs
Nodejs   TypeScript   Git   .NET   Java
SQL   MongoDB   REST APIs   HTML/CSS
JIRA   Master Data Management
Agile methodologies

## PROJECTS

### Stanley Black and Decker

- Configured Syndigo components efficiently, ensuring accuracy, consistency, and reliability of critical data across systems as part of Master Data Management (MDM).
- Covered Data Modeling, Workflow, Business Rules, and Integration, adeptly customizing the Syndigo (Riversand) MDM tool with agile methodologies.

### FutureGrail

- Oversaw the creation of a new NFT product as part of CoinFactory's portfolio, known as the top platform for ICOs in the industry.
- Utilized a robust technology stack featuring NextJS, Python, TypeScript, Styled Components, Redux and diverse APIs, coordinated through Git and Jira.
- Website is at: https://www.futuregrail.com/.

### HealthierU

- Developed a flagship healthcare product for the Dubai government, managing modules for doctors, patients, and administrators.
- Technology stack: ReactJS, CSS, Material-UI, APIs, Git, and Jira.
- Implemented chat/video call functionality using Agora SDK.
- https://www.linkedin.com/company/healthieruae/.

## CONTINUOUS LEARNING AND CERTIFICATIONS

Currently enrolled in online courses on advanced ReactJS techniques and cloud computing fundamentals. (2024)

Completed certifications in MDM Implementation Consultant, Python Bootcamp, Data Science Bootcamp, and Web Development Bootcamp. (2023)
