SUMMARY

Experienced Full Stack Developer with 3+ years of expertise in building scalable, user-friendly web applications using Angular, ReactJS, TypeScript, Node.js and JavaScript. Skilled in responsive design, state management (Redux), and component-based architecture. Adept at delivering optimized solutions that enhance performance, user engagement, and maintainability.

TECHNICAL SKILLS:

Frontend: ReactJS (Hooks, Context API), Angular, Redux, TypeScript, JavaScript, Material-UI, CSS

Backend: Node.js, Python, Express, RESTful APIs

Cloud: Azure, AWS

Tools: Webpack, Git, Jira, Docker, CI/CD Pipelines

Other: Component Testing, Responsive Design, Cross-Browser Compatibility, Agile Methodologies

Database: SQL, MongoDB

PROFESSIONAL EXPERIENCE

Freelancing

Full-Stack Developer

Remote, India

September 2023 – Present

- Built dynamic and responsive web applications using Angular, TypeScript, Node.js, Express and ReactJS, incorporating reusable components and enhancing functionality with 10+ new features.
- Decreased average page load times by 3 seconds through efficient API integration and lazy loading techniques.
- Refactored 150+ components for modularity, reducing maintenance overhead by 20%.
- Delivered 3+ client projects on time, adhering to quality standards and earning positive feedback.

Accubits Technologies Inc.

Frontend Engineer

Kerala, India

December 2021 – April 2023

- Designed and developed scalable frontend architectures for 2+ large-scale projects using Angular, TypeScript, Express, Node.js and NextJS, achieving load time reductions of 2 seconds per page.
- Streamlined deployment workflows, cutting deployment time by 10 minutes per iteration through Docker integration.
- Resolved 25+ critical API integration issues, improving data synchronisation and minimising downtime.
- Contributed to Agile sprints for 3+ client projects, ensuring delivery within deadlines with 90%+ client satisfaction ratings.
